MARKET

How to buy

- Any time on your turn, pay the cards below **from your hand**. Costs count **cards, not value**, so pay with 1s. Never Dead cards. The cost is also printed on each Market card.
- Paid cards **leave the game**. The bought card goes into your **hand**.
- Refill the face-up row from the deck after each buy.

QUICK REFERENCE

YOUR TURN

- Draw up to 5 cards. Say **critical** if 3+ Dead are in hand.
- Play cards, move, loot, buy, attack, in any order.
- End: 3+ Dead in hand = **out**. Otherwise discard down to 3 cards (Dead stay, not counted) and go again. No turn timer.

MOVE AND LOOT

- Base Move 1 + Move cards played. One adjacent tile per point.
- Moving **into** a tile with a cube takes it: draw the top card of that loot deck into your hand. Hand cap 5; extra loot goes to your discard pile.
- Gold cubes on your own tile can be taken without moving.

ATTACK

- Say **Attack**; the table pauses. Damage = Attack total – 2 per tile of range (Base Attack 1 + cards).
- Put that many Dead cards in the target's **discard pile**. Then resume.

TIMERS

- **Storm (every 4 min):** pause, mark the whole outer ring. Moving into a storm tile = 1 Dead; ending your turn on one = 1 more.
- **Drop (every 2 min):** first player (rotates) places it. Then the others move it in turn order: 2p one player 3 tiles; 3p each 2 tiles; 4+ each 1 tile. Table puts one gold cube per player on it.
